Presentation Overview:

The speaker will provide an overview of the Bothar Group of Companies and their capabilities as a specialist contractor along with several project case studies.

Speaker Bios:

Darren O'Toole: Darren is a civil engineer with 15+ years of experience in the delivery of predominately tunnelling/trenchless and civil infrastructure works throughout Ireland, Australia, UK and the Middle East. Through his current role as Vice President of Infrastructure with IPC, he is tasked with successfully executing tunnelling projects in North America while providing technical support to the Middle East branches of the Bothar Group of Companies.
